

Dear Carrie,
Spring Into The Season!

Spring is here. It's time to celebrate warmer weather, enjoy nature's beauty, experience luminescent light and breathe in fresh air. As you open your windows to the spring season, open your mind too - to updating your home with a lighter and brighter look. You can count on us to help you refresh your home with a beautiful new look for spring.

The Charisma of Color

Color is a powerful decorating element. It can update the look of your home and change the mood. Many people think paint is the first step in updating the color scheme. Other ways include new window fashions, carpeting and furniture.

Always use colors you like since you're the one who will live with them. And be careful about using colors just because they look good in a friend's house. Every house requires an individualized approach depending on your home

style and decorating taste.

Consider adding small accents of color, such as window top treatments, wallpaper borders, and paint for trims and moldings. You can also use color to correct problems. Colorful fabrics and paint can brighten a dark room. And vertical stripes in window coverings or wallpaper can make a low-ceilinged room appear larger.

Call on us to help you select colors that work beautifully in your home!
